**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Claims 1-34 are pending in the application.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-34, drawn to platinum complexes represented by complexes disclosed on page 22, page 8 ( 1<sup>st</sup> formula ) and page 9 ( 1<sup>st</sup> formula ) of specification, pharmaceutical compositions containing these complexes and method of treating tumors using these complexes, classified in class 548, subclass 101.
- II. Claims 1-34, drawn to platinum complexes represented by complexes disclosed on page 18, page 8 ( 2<sup>nd</sup> formula ) and page 9 ( 2<sup>nd</sup> formula ) of specification, pharmaceutical compositions containing these complexes and method of treating tumors using these complexes, classified in class 548, subclass 216.
- III. Claims 1-34, drawn to platinum complexes represented by fused bicyclic complexes disclosed on pages 8 ( 3<sup>rd</sup> formula ) and 9 ( 4<sup>th</sup> formula ) of specification, pharmaceutical compositions containing these complexes and method of treating tumors using these complexes, classified in class 548, subclass 108.
- IV. Claims 1-34, drawn to platinum complexes represented by fused tricyclic complexes disclosed on pages 8 ( 4<sup>th</sup> formula ) and 9 ( 5<sup>th</sup> formula ) of specification, pharmaceutical compositions containing these complexes

and method of treating tumors using these complexes, classified in class 548, subclass 302.1.

V. Claims 1-34, drawn to platinum complexes represented by non-heterocyclic complexes disclosed on pages 14, 16, 17 and 20 of specification, pharmaceutical compositions containing these complexes and method of treating tumors using these complexes, classified in class 502, subclass 171.

3. The inventions I through V as defined above are patentably distinct, each from the other since they are structurally so divergent that a reference showing compounds of invention I would not render compounds of inventions II through V prima facie obvious.

Search required for e.g ; compounds of invention I in class 548, subclass 101 is not the same search required for e.g ; compounds of invention II in class 548, subclass 216 and therefore, constitutes a burdensome search.

4. A telephone call was made to the applicant's attorney, Mr. William W. Schwarze on Sep. 21, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1625

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

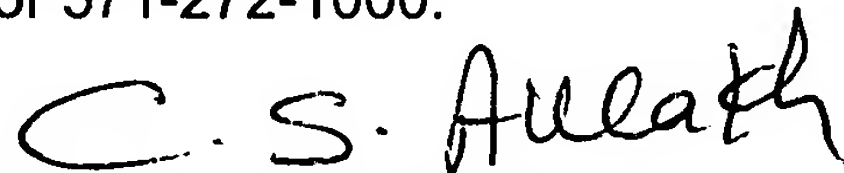

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas McKenzie can be reached on (571)272-0670. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
